Bio Farma Raih Peringkat ke-1 Keterbukaan Informasi Publik

Jakarta, 12th December 2014, Bio Farma achieved the first position in Public Information Transparency (*KIP*) from the Central Information Commission, which is handed over by Vice President Jusuf Kalla to the HR Director of Bio Farma Andjang Kusuma at the Palace of the Vice President on Friday afternoon. The award received is an addition to the other awards won by Bio Farma throughout the month of December 2014, among others the PROPER Gold from the Ministry of Environment and Forestry, Best CEO, Best SOE and the application of Sustainability Report or statements by applying the GRI (Global Reporting Initiative) - G4 from NCSR (National Center for Sustainability Report). The first position in Public Information Transparency was obtained through a quite tight mechanism, starting with; Bio Farma submitting the form and completed the proof of information activity transparency which refers to *KIP* Act No. 14 of 2008. Bio Farma has implemented a public information transparency in the early years after the KIP Act existed, which is around the year 2009. According to the Head of Corporate Communications of Bio Farma, N . Nurlaela as the PPID official of Bio Farma "We have the complete tools and mechanisms of KIP, that are updated every year, we have devised a classification of public information consisting of periodic information, spontaneous information, and information that must be provided, while also providing access to the public information, particularly through our website www.biofarma.co.id which is almost similar to a printed media activity, by regularly publishing the latest news of activities and performance of the company which is integrated with social medias ".

"Last year we were in the second position at KIP, this year we have done a lot of improvement such as providing special representative rooms for public information services, publish a variety of printing press for the socialization of KIP, hence when audit and visitation were carried out by the assessment team from the Central Information Commission on 26th November 2014, Bio Farma scored 85.8 for the application of KIP among SOEs that were assessed ".
