Semen Baturaja Vaksinasi Siswa SD

PT Semen Baturaja melakukan vaksinasi flubio kepada 600 siswa sekolah dasar (SD) di sekitar perusahaan. Kegiatan sosial yang digelar di Kantor Lurah Air Gading, Kecamatan Baturaja Barat, Ogan Komering Ulu, Sumatra Selatan, ini diikuti pelajar dari 12 SD. Direktur Umum dan SDM PT Semen Baturaja (PTSB) Romlan Kurniawan mengatakan, vaksinasi flubio ini merupakan bagian dari program tanggung jawab sosial (CSR) di bidang peningkatan kesehatan. Hal ini sebagai wujud kepedulian perusahaan terhadap lingkungan dan sekaligus sinergi program CSR BUMN antara PTSB dan PT Bio Farma yang merupakan satu - satunya produsen vaksin dan serum. Sasaran vaksinasi flubio diberikan kepada siswa kelas VI SD di wilayah sekitar PTSB. "Vaksinasi flubio untuk anak SD sangat penting mengingat setiap tahun rata – rata penyakit influenza adalah penyebab terbesar atas ketidak hadiran siswa di sekolah, sehingga menurunkan produktivitas proses belajarmengajar dan meningkatkan biaya pengobatan," katanya. la berharap, melalui program ini dapat memberikan konstribusi serta manfaat, sehingga mampu meningkatkan dan menjaga kesehatan siswa SD di lingkungan wilayah perusahaan. Dengan demikian, bagi orang tua siswa dapat menurunkan biaya pengobatan serta kunjungan ke dokter akibat dari penularan virus influenza. "Program ini merupakan langkah awal dan seterusnya sebagai wujud CSR serta kepedulian lingkungan perusahaan dengan menggalang kebersamaan dan sinergi program – program yang ada," katanya. ■ antara ed: khoirul azwar Sumber : Republika

PT Semen Baturaja administered flubio vaccination to 600 elementary school students (*SD*) around the company. The Social activity that was held at the Village Head Office of Air Gading, District of West Baturaja, Ogan Komering Ulu, South Sumatra, attended by students from 12 elementary schools. The General Director and HR of PT Semen Baturaja (PTSB) Romlan Kurniawan said that the administration of flubio vaccination is part of the social responsibility (CSR) in the field of health promotion. It is an act of concern of the company for the environment and also the synergy program among PTSB and PT Bio Farma which is the only manufacturer of vaccines and serums. The flubio vaccination targets are six graders in the area around PTSB. "Flubio Vaccination for elementary school students is very important since influenza disease is the main cause of absence of students in school, resulting in lower productivity of education process and increase in cost for medication," he said. He hoped that through this program it can contribute and benefit so it improves and maintains the health of elementary school students in the area of the company. Thus, the parents can reduce cost of medication as well as visits to doctors as a result of transmission of influenza viruses. "This program is an initial step and will continue as a form of CSR as well as the company’s environmental

awareness by reinforcing togetherness and the synergy of existing programs," he said. ■ antara ed: Khoirul azwar Source: Republika
