Tri Wahyu Murni, Sp.Btkv, community leaders from the village of Mayangan Carwita and Wahyudin, in Mangrove Planting activities in the Critical Land area in Mayangan Village, Kec. Legon Wetan, Kab. Subang, West Java. (Photo : M. Andzhar - Bio Farma - CorComm)

Handover of mangrove trees symbolically given by Head of the Asset Management and General Affairs Division of Bio Farma, Erwin Kurniawan to the Chairman of the Wanadri Foundation, Tri Wahyu Murni. The Chairperson of the Management Board Wanadri Rafi Respati, West Java Forestry Service, represented by the Head of the Purawakarta Forestry Service Irawan, local community leader, Carwita has participated to supporting this activity.

In his speech, Erwin Kurniawan said that Bio Farma has realized a form of environmental concern by synergizing with several stakeholders, such as the local community, the Wanadari Foundation and government elements. To save the earth, we need to cooperate with all parties, to increase community's economic growth as well as maintain and improve plant ecosystems.

“Bio Farma is committed to saving humans through the provision of vaccines, to improve the immune system. Bio Farma alaso also committed try to improve environmental conditions, especially

in critical lands by planting mangroves as a commitment to save the earth," said Erwin.

The chairman of the Wanadri Foundation, Tri Wahyu Murni, said that the northern coastal area of Java Island was an area that was heavily affected by abrasion. Not only that, the mangrove plants that have been a barrier to the ferocity of the waves have been reduced due to land conversion

"Wanadri hopes that the community can plant on critical land as a form of disaster mitigation" he said.

As Srikandi Bio Farma Representative for Communication and Cooperation, Ayu Fanny Fitriastuty said, "In commemorating World Ocean Day, we want to actively participate in being involved in carrying out this mangrove planting activity as a way to rehabilitate critical land in coastal areas. to create better environment. Planting mangroves must be done with care, and also pray to get good result.
